

My husband and I listen frequently to K-LOVE and believe that it is an important community service. It is commercial free and family friendly, a service that may not be able to be provided in our rural area if LPFM stations have priority. As our son grows up, we want to continue to have radio access to the "safe" and positive programming that K-LOVE provides. I know that many friends and family in Grand Junction feel the same way. Thank you for your consideration.
